## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-26, drawn to phase locked loop, classified in class 375, subclass 371.
- II. Claims 27-30,39-41, drawn to storing data, classified in class 714, subclass 769.
- III. Claims 31-35,36-38, drawn to clocking and interfacing, classified in class 326, subclass 93.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions "phase control circuit" as recited in claims 1-26, storing the value indicative of a data rate as recited in claims 27-30 and 39-41 and "a serializer and a select circuit" for selecting "data bits within the outbound data values" as recited in claims 31-35 and 36-38 are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different designs, modes of operation, and effects (MPEP § 802.01 and § 806.06). In the instant case, the different inventions because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

3. During a telephone conversation with Attn. Kirk J. DeNiro on 10/26/2006 a provisional election was made without traverse to prosecute the invention of phase locked loop, claims 1-26. Affirmation of this election must be made by applicant in replying to this Office action. Claims 27-41 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

#### EXAMINER'S AMENDMENT

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
5. Authorization for this examiner's amendment was given in a telephone interview with Attn. Kirk J. DeNiro on 10/26/2006.
6. The application has been amended as follows:
  - a. Regarding **claims 27-41**, please cancel claims 27-41.
7. This application is in condition for allowance except for the presence of claims 27-41 are directed to an invention non-elected without traverse. Accordingly, claims 27-41 have been cancelled.
